

a career in your suitcase

What the World Needs

*It's time to zoom out and then zoom in to think about
'That Which the World Needs' in local and global terms.
That means the 'world' in your current location as well as global issues.
Take 15 minutes to answer these questions:*

1. What drives you crazy? **OR** What problem in the world are you moved to be part of the solution to? **OR** What is the footprint you would like to leave behind in this world?
2. Why do these things drive you crazy or concern you?
3. What can you do or what skills do you have to contribute in response to this problem?
4. Use this exercise to further translate global or local current events into opportunities.
